

Online VortexHealing® Foundational training with Anthony Gorman 23-27 February / 25-29 May / 16-20 September 2026

Whatever the challenges you face, life always offers you the opportunity to dive deeper and connect with the source of life, to experience grace through the growth of awareness. With growing awareness comes the opportunity to act, which holds magic and can change everything.

This is true magic: Divinity's love and power to manifest its potential. This is the magic that brings creation into being and can create miracles, which you once believed in as a child. This is the magic that touches your heart and helps you remember who you really are. VortexHealing is about true magic from the heart of Divinity that brings healing and inner transformation.

VortexHealing® is an expression of the Merlin lineage, a magical healing art taught through direct consciousness transmission. This transmission directly evolves and transforms your energy system and consciousness, aligning your spiritual evolution to heal from the past and ripen you toward spiritual awakening.

In the five-day Foundational workshop, you will experience deep healing and practise self-healing, hands-on healing for another person and distance healing. You will be introduced to concepts such as

- The anatomy of the human energy system**
- The Spiritual Heart and meditation techniques**
- The distinction between awareness and consciousness**
- The Incarnational journey and what is awakening**
- The holistic integration of karmic, emotional and physical healing**
- Psychological well-being and deepening in Divine Love.**

The workshop also communicates an overall framework of understanding on how holistic healing works within the context of Divinity.

Anthony Gorman has taught VortexHealing® for the past 26 years
