

# Online VortexHealing® Foundational training

with Anthony Gorman

18-22 February / 7-11 May / 24-28 September 2025

Whatever the challenges you face, life always offers you the opportunity to dive deeper and connect with the source of life, to experience grace through the growth of awareness. With the growth of awareness comes the opportunity to take action, which expresses magic and can change everything.

This is not the illusionary magic of stage magicians, mentalists and spiritual wishful thinking, but true magic, which is Divinity's love and power to manifest its potentiality. This is the magic that brings creation into being and can create miracles, which you once believed in as a child. This is the magic that touches your heart and helps you remember who you really are. VortexHealing is about this kind of true magic from the heart of Divinity, which brings healing and inner transformation.

VortexHealing® is an expression of the Merlin lineage, a magical healing art taught by the process of direct divine consciousness transmission. This transmission directly evolves and transforms your energy system and consciousness, aligning your spiritual evolution to heal from the past and ripen you toward spiritual awakening.

In the five-day Foundational workshop, you will

- Experience deep healing and practise self-healing, hands-on healing for another person, and distance healing.
- You will be introduced to concepts such as the
  - The anatomy of the human energy system
  - The Spiritual Heart and meditation techniques
  - The distinction between awareness and consciousness
  - The Incarnational journey and what is awakening
  - The holistic integration of karmic, emotional and physical healing
  - Psychological well-being and deepening in Divine Love.
- The workshop also communicates an overall framework of understanding on how holistic healing works within the context of Divinity.

**Anthony Gorman has taught VortexHealing® for the past 26 years. To book a workshop please visit**
